Seven Hills Anesthesia announces the appointment of New CEO

Mark Grossman Named Chief Executive Officer

Press Release

The Board of Directors of Seven Hills Anesthesia (SHA) has named Mark Grossman as Chief Executive Officer effective June 12, 2017. Mr. Grossman is a dynamic and accomplished Senior Healthcare Executive with more than 20 years of diverse experience in healthcare management. Mark's background includes extensive experience with hospital based leadership and management of Radiology and Anesthesiology practices in Cincinnati, Connecticut, and New York. Additionally, Mark brings significant revenue cycle experience including managed care contracting. Jay Weller M.D., President of SHA, states "We are incredibly excited to add Mark to our management team. We are confident that he will provide strong organizational leadership while building the Management Service Organization and related business infrastructure which will support continued growth".

Most recently, Mark served as Chief Operating Officer for ProScan Imaging based in Cincinnati. Mark holds a Bachelor's Degree with a Double Major in Accounting and Finance from the University of Cincinnati. Mark is a member of the Medical Group Management Association.

About Seven Hills Anesthesia

Seven Hills Anesthesia (SHA) is proud to provide state-of-the-art perioperative medicine at 18 locations throughout Greater Cincinnati and Northern Kentucky. SHA has evolved from a core group of independent medical practices with more than 50 years of service to the community to become the region's prominent professional anesthesiology organization. Partnering with the area's top hospital systems - including Tri-Health and St Elizabeth Healthcare and ambulatory surgical centers including Beacon Orthopedics, Cincinnati Eye Institute, Tri-State Center for Sight, and the Center for Surgical Care (Head & Neck Surgery Associates) - SHA provides care to approximately 100,000 individual local patients on an annual basis.

SHA comprises over 60 physicians as well as more than 130 Certified Registered Nurse Anesthetists. Our dedicated staff are recognized leaders within the medical community. SHA realizes that anesthesia leadership is critical to a well-functioning operative suite. Anesthesia leaders have the ability to drive change across the continuum of procedural care, impacting clinical and operational performance by improving throughput and operating room efficiency, increasing patient satisfaction, improving communication, and enhancing quality for improved patient outcomes.
