Seven Hills Anesthesia to Provide Sedation Services at Mercy Health – West Hospital

(CINCINNATI; September, 2019) – Mercy Health West Hospital has named Seven Hills Anesthesia as its provider of surgical sedation and related perioperative services at the hospital and affiliated on-campus ambulatory surgery center.

Having served the Greater Cincinnati area for more than 50 years, Seven Hills Anesthesia is the largest privately-owned independent anesthesia practice in Greater Cincinnati, Northern Kentucky and Southeastern Indiana. Seventy physicians and more than 175 certified registered nurse anesthetists make up the practice. Under the agreement, Seven Hills Anesthesia started providing anesthesia and perioperative care services at the hospital earlier this summer.

“Seven Hills provides an outstanding service and will be an excellent partner as we provide high quality and advanced surgical care to our patients,” said Michael Kramer, President, West Hospital.

“West Hospital and Seven Hills Anesthesia both have a reputation for high quality. For the fourth year in a row, West Hospital has received awards for delivering high-quality care, placing it in the top five percent of hospitals in the United States.

“We are excited to be a part of the medical staff at West Hospital and become a division of Seven Hills Anesthesia,” noted Kris Durbin MD, Medical Director of Anesthesia at West Hospital. “The surgical facilities are excellent and the staff is well trained. My fellow anesthesiologists and I look forward to continuing to provide high quality anesthesia and perioperative services to the patients of Mercy Health.”

Jay Weller MD, President of Seven Hills Anesthesia, states that the addition of West Hospital is consistent with the organization’s growth strategy in the Cincinnati region.

Mercy Health - Cincinnati is part of Bon Secours Mercy Health (BSMHealth.org), one of the top 20 health systems in the United States, one of the largest employers in Ohio and part of the top performing quartile of Catholic health systems for lowest cost per case for patient care.
